Work consists of 4,436 LF of gravity sewer line and 923 LF of water line.

Subject to the terms, conditions, provisions, and the enclosed specifications, responses to this solicitation will be received at this office until the stated date and time. Responses received after the scheduled due date and time will be rejected. Bids must be submitted in a sealed package marked on the outside with the Offeror’s name, address, and the solicitation name and number.

This solicitation does not commit Colleton County to award a contract, to pay any costs incurred in the preparation of bids submitted, or to procure or contract for the services. B. SCOPE OF WORK

The project consists of 4,436 LF of gravity sewer line and 923 LF of water line. The proposed sewer is a 12” line that will tie into the City of Walterboro’s main 18” trunk line. The trunk line is on the opposite side Ireland Creek from the project parcel and an aerial crossing will be required. Most of the installation will be within the SCDOT right-of-way limits until the proposed sewer line reaches the airport parcel limits in which the line will turn into the site and will reduce to a 10” line. Water is present at the Airport site but is located on the opposite side of the roadway. The water line will have to be jacked and bored beneath Robertson Boulevard and will extend directly into the Airport parcel. All work along Robertson Boulevard will be constructed in accordance to the specifications of the SCDOT encroachment permit obtained. All work beyond the SCDOT right-of-way will be on airport property and coordination with the airport manager will be required.
