**Public Comments (3 minutes per person/max time 20 min.)**

Anthony Rhode came to you in August about a swimming pool project that we were conducting here last year in Colleton. At that time council asked for a recommendation from the Parks & Recreation Department. My understanding from Mr. Myers in the Parks & Recreation Department is that the recommendation has been made and submitted and I wanted to find out if council there any discussion on the potential of that project or any information

Mr. Griffin interrupted to say he believed they got the recommendation after council packet went out so that will be on for the March meeting.

???? Gentleman I’m offering a trading school for people to trade currencies and stocks in the market. It would hold at 13.7 trillion dollar value within the global economy. I believe a lot of people within Walterboro has allowed to make good …inaudible… this all just random, but I would like to go ahead and report for a grant and I have all the people and all of stuff up to date and ready to go.

Dr. Flowers said you want us to do??

Gentleman said yes a grant.

Dr. Flowers said you will have to present that in written form for us to take it under any consideration.
Audrey Brown- On behalf of Neyles Community Center we would like to thank the Administrator and County Council for working with us and then acknowledged the individuals from the Neyles Community here tonight.

Kimber Santorella- I am the newest member of the board of trustees at the Colleton County Memorial Library. The director and I have attended the Legislative Session last week in Columbia. We met with several legislators and one was Rep. Brown. He suggested I attend the council and introduce myself to Evon Robinson since he represents the Cottageville area. I also live in Cottageville and have met with the Mayor regarding the branch library at Cottageville. I just wanted to ask for your continued support of the Cottageville Community and the future of the Library in Cottageville.
