**Administrative Briefing**
Mr. Griffin said you have the official statement from the bond sale on March 1st. This is the four million dollar GO Bond, primarily for the recreation park. We ended up with a 2.49% rate, which is actually a point and a quarter less than where we thought it would be. This also is reflected in our new bond rating.

The two additions to the agenda, generally we try not to do that if we don’t have to on major items, but we had two pop up as directed from our workshop back in January when we started working on some upgrades and some needed upkeep on the library. We sent out a bid for the painting in the library that did not come in prior to us sending the agenda out. We did get it late last week and have added that. The other item is Kucera International. As you well know every ten years the state requires us to once again fly our aerial…inaudible…photos for the county. We were able to partner, as you know it is getting very close to the end of the flying season, even more so this year with the warm weather we have had. We were offered the opportunity to very quickly jump on and have them go and fly the county this year at a reduced rate because we are actually able to piggyback on a contract that was already let with some counties in the upstate including Florence, Marlboro, Darlington, and so on. With that being said, we felt it would be good to go ahead and add that so we could get it done this year and should have that in house by the end of June.

Another item on the agenda tonight, Judge Buckner had come a while back and made a presentation on the Assign a Highway. At that time council had directed us to see if we could find a suitable vehicle to expand the Assign a Highway program and be able to pick some of these folks up and go to certain areas. Mr. Steiglitz over in Fleet Management, we had a van that came off line he was able to spend a little bit of money on and upgrade the transmission and we are going to bring it back into service as the Assign a Highway van, so we will be able to expand that program.

The progress on the ballpark is coming along quickly. It is starting to come out of the ground with both the sporting tower and the concession and restroom building. It is looking really well.

We have had over 500 kids sign up for baseball/softball this year. Our pre-season tournament will be Saturday, March 31st, so put it on your calendar.

Resolution 12-R-36, To Appoint Members to Board Vacancies.

Mr. Whetsell asked if there was anyone here that can answer a question. Do we have any kind of notice or anything that a person could serve only on one board? I think Dr. Joe and Mr. Murdaugh were two council members on here prior the rest of us and I wonder if they remember anything.

Mr. Taylor said he had raised the question when he came on the board in relation to it because I looked at the committees and saw a couple of people serving on two commissions and some of our commission are a little more active than others. Some only meet for instance the board of appeals, if there is an appeal that shows, others meet monthly and other things and I think this is one of the issues that Mr. Murdaugh was bringing up last month that we take a look at all of our commission and see what we are doing.

Mr. Whetsell said that doesn’t answer the question.

Mr. Taylor said right, but when I talked to the administrator he said there was nothing in the books that basically said you couldn’t serve on more than one.

Mr. Murdaugh said who is serving on two.

Mr. Whetsell said we have one listed here on three of them.
Council continued to discuss the controversy.

Mr. Robinson said let’s consult our attorney for an opinion.

Mr. Thornton said I don’t like to give opinions in open session. That should be executive session.

Mr. Taylor said I would like to table this resolution until we have discussed this in executive session and was seconded by Dr. Flowers.

The motion carried unanimously.

Dr. Flowers made a motion to approve 1\textsuperscript{st} Reading By Title Only of an ordinance reducing membership for Board of Disabilities & Special needs and was seconded by Mr. Taylor.

The motion carried unanimously.

Mr. Whetsell said there is a seat on the front row that was always occupied for the last ten years that I can speak for by Mr. Carl Headden. He probably never missed more than five meetings during this ten year period. Now, whether you liked him or not he was going to say whatever he had on his mind. Sometime you would agree with it and some time you would not, but he was faithfully in coming and letting you know how he felt and Mr. Headden passed away a couple of weeks ago and he won’t be meeting with us anymore, but I just would like to recognize the fact that he has been with us for a lot of time and was really concerned when he brought up a matter, he was concerned about that because he felt like it would make our county a better and a safer place in which to live and I would like to recognize it at this time as he was a real Colletonian.

Mr. Robinson said thank you Mr. Whetsell, I know we can all concur to what you said in regards to Mr. Headden  He expressed his self like you said whether you liked it or not and I think that is one thing good about democracy. You don’t always go along with everyone, but you can express yourself.
