Recycle Used Motor Oil, Filters & More

The following petroleum products **ARE ACCEPTED** and may be put into the used oil collection tank:

- motor oil;
- hydraulic fluid;
- gear oil;
- diesel fuel;
- fuel oil;
- kerosene;
- automatic transmission fluid; and
- power steering fluid.

The following petroleum products **CANNOT BE PLACED** in the used oil collection tanks:

- antifreeze;
- Varsol;
- brake fluid;
- paint (oil and latex);
- paint thinner;
- refrigeration oil; and
- any solvent cleaner or substance used to clean paint brushes.

OIL FILTERS MUST BE DRAINED.
Allow 24 hours for oil to be completely removed from filter.

Recycle Used Motor Oil!

Used motor oil, oil filters and empty motor oil bottles are frequently improperly disposed of. One gallon of used motor oil poured on the ground or in a sewer system can contaminate as much as 1 million gallons of water... often the very water we drink.

To make recycling easy and convenient, all Colleton County Recycling Centers accept used motor oil, oil filters and oil bottles for recycling.

Why Recycle?

- **TO SAVE NATURAL RESOURCES**
 - ▶ For each ton of recycled glass used to make new glass, nine gallons of fuel are saved.
 - ▶ 58 percent less water is used to make recycled paper than when using raw materials.
- **TO SAVE ENERGY**
 - ▶ Recycling one aluminum can saves enough energy to run a television for three hours.
 - ▶ Two gallons of recycled motor oil have enough energy to run the average household for 24 hours.
- **TO SAVE LANDFILL SPACE**
 - ▶ Landfills are expensive to build and maintain. Why put recyclables in the landfill? Save valuable landfill space.

Colleton County Recycling Centers

COLLETON COUNTY RECYCLING CENTERS

are for Colleton County residents' residential use only. The use of any of these sites for the disposal of commercially generated waste is **ILLEGAL**.
